## **Natural New Zealand Skin Care Product wins Platinum Award**

Niche New Zealand skin care brand, Dr. Wendy's 100% Botanical Skin Care, has received accolades in the UK, winning a platinum award for its Balance Toner.

The award is issued by Janey-Lee Grace, a well know British natural products advocate and media personality. Products entered into the awards undergo a variety of reviews and tests by consumers, experts and product reviewers. In Janey Lee's words the products are "the best of the best". Dr. Wendy's 100% Botanical Skin Care Balance Toner contains pure organic New Zealand grown plant hydrosols distilled locally and includes organic lavender and lemon geranium with Australian sandalwood oil.

The reviewers stated "

***"This is a really refreshing balancing toner and we love the fact that's it 100% botanical, organic and vegan. "***

Owner and creator of the range, Wendy Maddocks- Jennings, is delighted at the award, as the UK natural market is highly competitive and "to have our brand selected as a winner in a category is a great coup for a niche company from the other side of the world." All our products are licensed vegan, vegetarian and cruelty free, so literally everyone can use them.

The Dr. Wendy's range is exported to several countries and is about to expand into Korea and has been approved as a professional salon range in New Zealand.

Winning the award means a distinctive logo can be used to promote the status and already there has been an increased demand for on line sales of the product since the win was announced.
